LENSES / Crizal high-index 1.67 with AR coating

"A friend of mine worked as an optician and was amazing at matching glasses to a person. She called me one day to say she had the perfect frames for me, and she was right. I love that they have a little bit of blue that matches the color of my eyes and a little bit of bling without being too sparkly."

KRISTIN ELLSWORTH

CO-FOUNDER, GREAT GLASSES PLAY DAY, FOUNDER, PEEPS EYEWEAR

Kristin has been working in optical for six years. In addition to co-founding the Great Glasses Play Day, she is the founder of Peeps Eyewear, a children's eyewear brand and blog, and the author of *Princesses Wear Glasses*, a book encouraging children to love their glasses.

FRAMES / Morgenthal Frederics Nymph 48019

LENSES / Essilor Progressive Ovation "I plan to add AR with my next prescription!"

"I saw the frame displayed in a window when I was passing by an optical store in a hurry. I stopped in my tracks and went inside. The frame fit perfectly and I loved the style and color. I love the modified cat eye shape and the unique detail in the temples. The frames are incredibly comfortable."
