

# TASTE THE RAINBOW

JAMIE WILSON / ASSOCIATE EDITOR

**WHO:** If Skittles are your go-to candy to satisfy your sweet tooth and for those who loved Rainbow Brite as a child. For Wizard of Oz lovers who know all of the words to “Somewhere Over the Rainbow” and for those taking fashion inspiration from the ever-eclectic Solange Knowles.

**WHAT:** Bright, bold colors including primary colors. Summer is winding down and fall may be in full swing, but bold color styling adds a much needed juxtaposition to the cooling temperatures.

**WEAR:** (Top to Bottom) Since we’re talking about colors, there’s no way we could leave out L.A. Eyeworks. These limited edition **Donut** frames in sunny yellow with purple exude whimsical fun and are definitely for the wearer who is looking to stand out from the crowd. Philly Eyeworks’ **Whiz Wit** purple sunnies are an ideal pair of shades that successfully make the seasonal transition from summer to fall. They’re the perfect pop of color that doesn’t overpower one’s look. The Cat Eye eyeglasses in red from Modo’s new **ED** eyewear collection are a classic pair of ophthalmic frames that stand out with its bold red hue. When referencing color, Kirk & Kirk does a great job of creating colorful eye-catching eyewear. This electric blue **Carey K4** frame exudes a cool, calm and collected vibe while still adding a bit of playfulness through its bright blue coloring. Safilo’s **Polaroid** collection is packed with colorful frames. The D203 frames come in a sophisticated shape while its green color shines through to create a statement.

**WHY:** Entering into fall doesn’t mean you have to sacrifice color in your wardrobe. In fact, **colorful** frames are a must to offset this seasonal **change**. These **bold** frame shades are a great way to add a **pop** of color to the darker hues that will be taking over once the fast approaching colder months arrive.
